COVID19 VACCINE INFORMATION

PHASED APPROACH

The County of Los Angeles Department of Public Health is following CDC guidelines and using a phased approach to determine who will be vaccinated.

[Learn Where You Are in Vaccine Distribution](#)

TORRANCE FIRE

To date, we have vaccinated all willing staff who fall into the Phase 1A category. While we have not been provided any additional allotments, we are actively engaged with Los Angeles County to procure more vaccine and begin distribution to those in Phase 1b.

OES

The City's Office of Emergency Services is also working to set up a County sponsored vaccination site within the City boundaries. This plan is still in the early stages, more information will be provided as it becomes available.

NOTE

As you can imagine, vaccine distribution has many moving parts and is constantly evolving. Refer back to this page often, as we will provide updates as they arrive. Additionally, use the link below to access the Los Angeles County Department of Health COVID Vaccine information website. There, you can sign-up for automated update emails and research more information about the currently approved vaccines. As always, work with your doctor to determine which path is best for you.
